

EMPLOYEE GERM BARRIERS & SNEEZE GUARDS

CUSTOM OR PRE-DESIGNED ALUMINUM & POLYCARBONATE GUARDING

Sneeze Guards and employee safety barriers are a crucial form of protection from the transmission of COVID 19 coronavirus and other viruses and bacteria. Parco's aluminum and polycarbonate barriers & protective guarding are being used across the country in retail, commercial, and industrial environments. For greater impact strength and abrasion resistance, our shields are made using polycarbonate or acrylic sheets. Parco-Inc. can manufacturer any pre-designed or custom guarding
